OPTIMAL VIEW DISTANCE	2.6m
PIXEL PITCH	2.6mm
MAXIMUM PANEL CURVE	+40° / -40°
RESOLUTION	192px x 192px
WEIGHT	7.7 KG
POWER DRAW	45 W
DIMENSIONS	500mm x 500mm x 80mm

USE CASES

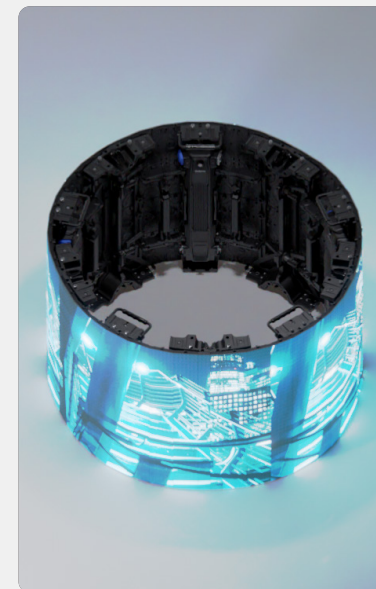

WAVE ▼

By combining 2 or more panels and inverting the curves as they are built, a wave formation can be created.

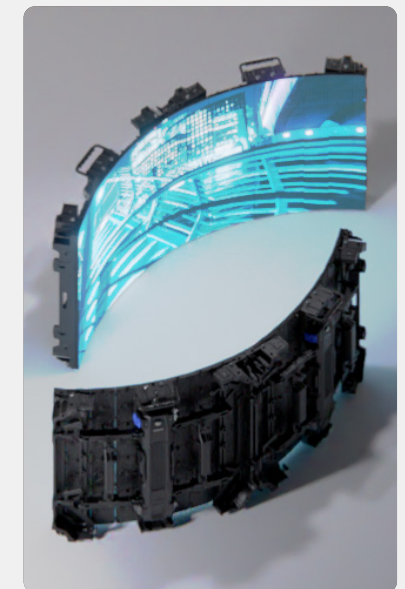

CIRCLE ▼

A circle can be achieved with 9 panels and can be stacked to create totems and flying arrangements

TIGHT CURVE ▼

The UPAD IV-S panels can curve up to 40 degrees, meaning a tight curve can be achieved with minimal panels
